

## **Residential: The Engel & Völkers “Top 10 Agents 2015” now confirmed**

Each year, Engel & Völkers names and honours the most successful real estate agents in its international network. Now the 2015 winners have been confirmed for the Residential division.

Due to the strong growth of the Group and the different market conditions, Engel & Völkers has, for the first time, honoured the most successful real estate agents in the EMEA region (Europe, Middle East and Africa) in addition to the global “Top 10 Agents”. There are four categories for the ranking: the highest transaction volume, the highest commission, the highest number of rentals and the highest number of sales. Data from 1 January through to 31 December was analysed for the ranking.
